About The Program

We know hunting for a job in current job market is extremely tough, and so we are here to **help you out**! Our program focuses on providing you with different options to reach your maximum potential. Our program is specifically carved out for individuals looking out for jobs.

How Do We Prepare You?

Our program aims at giving you your best shot for a job. We do that by providing you with different services.

We boost your chances of getting shortlisted by **45% with our ATS-optimized resume building service**, and you gain valuable experience through **1:1 mock interview sessions** that provide you with crucial feedback.

Receive **10-20 job referrals to top companies like Amazon, Microsoft, Google, Apple, and Meta**, tailored to your preferences. Join our **internship** program to work on corporate tools like **Jira and Confluence**, collaborate on exciting **projects, and earn certificates** that showcase your skills.

Stay ahead of the competition with the latest **off-campus job opportunities** sent directly to your phone, and learn from industry experts through our **instructor-led courses** on the most in-demand skills. Track your progress with our **gamified Learning Management System**, and use our **Job Management Dashboard** to apply for top **job referral** opportunities. Access top **labs and tools** to create amazing projects, and participate in **1:1 career counseling sessions** to discuss your passions and interests, and get **personalized guidance** to achieve your career goals. Plus, you'll have a dedicated **Placement Coordinator** to support you throughout your journey. Join our College Outreach Program today and take the first step towards a **successful career!**

Presenting : Career Accelerator Program

Our Features:

Job Referrals

Get 10-20 job referrals in top companies of the world such as **Amazon, Microsoft, Google, Apple, Meta** etc. Let us know your preferences and get referred to land a job. Use our Job Management Dashboard to view job opportunities and apply for referrals. Job referrals are like shortcut to interviews skipping ATS in most cases.

Career Counseling

We know everyone is different and we are here to help you achieve your dreams. Participate in 1:1 Career Counselling session, discuss your passion and your interests. Get guidance to achieve your dreams!

Internship With Certificate

Go through our **Internship program** where you'll learn to work on corporate tools like Jira, Confluence etc, Visual Studio and build Corporate Level Projects. Work in teams and create awesome projects with Certificates! Receive **Certificate and Experience letter** for your Internship with our company.

Placement Coordinator

Get a dedicated Placement Coordinator who would help you through your journey. He will be your buddy, helping you through your testing times and help you get referred to top IT companies and a profile of your choice.

Presenting : Career Accelerator Program

Our Features:

Resume Building

We help you build an ATS (Application Tracking System) optimized resume, increasing your chances of getting shortlisted by 45%. Go through our sessions to build an awesome resume that beasts the ATS and gets you placed.

Mock Interviews

Mock interviews enable you to understand where you are lacking and where to focus. Participate in 1:1 mock interview sessions to gain experience and feedback. These interviews will help you prepare for your placements in best possible way and you'll gain valuable feedback for top SMEs.

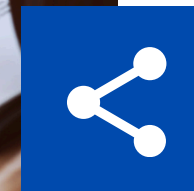

Gamified LMS

Earn points at each step, see how you are doing! Use our Learning Management System to submit quizzes, test, assignments, projects and gain points. Get noticed by top recruiters!

Instructor led Course With Certification

Landing a job is impossible without immaculate skills and knowledge. Our industry experts and senior engineers will take you through instructor led course on most in-demand courses. Complete the course and go through the actual certification exam to get certified from Amazon, Microsoft, Cisco, Adobe, Google etc

Presenting : Career Accelerator Program

Our Features:

Screening Exam Preparation

We help you prepare for your first screening round which is usually the **Aptitude or Coding Round**. Learn from top SMEs on how to beat these tests with ease. This exam is usually the first step towards a job and needs to be prepped properly with practice and mentorship.

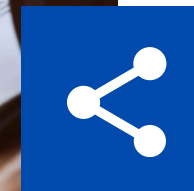

Offcampus Job Alerts

Receive job alerts directly on your phones about the off-campus placement drives across India. Get opportunity to be interviewed by top IT MNCs around the globe.

Experience & Recommendation letter

We provide you with **Certificates, Experience and Recommendation letter** to give your resume a slight edge over other applicants making it easy for companies to shortlist your profile.

Premium Support

Get premium support just one call away. We are here to hear out your issues and cater to you 24x7.

Private Learning Management System

You will receive a personalized learning management system hosted privately and tailored to meet your specific needs. This LMS will serve as a conduit connecting instructors, learners, and management to monitor learners' progress and extract valuable insights.

Private Learning Management System

Get a private Learning Management System with a gamified approach to encourage learners and make learning more rewarding.

- ✓ Personal Dashboard
- ✓ View Courses Details, Access Learning Material
- ✓ Manage schedules and events
- ✓ Download Certificates
- ✓ Attempt Quizzes, Submit Projects and Assignments

Different Mentorship Styles

We offer 2 different types of mentorship styles to choose from. Whatever course you choose, it can either be taken up 1:1 with mentor or in a team/batch. Choice of yours to make, more power to you!

1:1 Mentorship

✓ Enroll in our 1:1 mentorship program and get trained by industrial leading engineers with 10+ years of working experience. You will get 100% attention of the mentor which makes doubt clearing super easy and fun!

✓ Get 100% attention of your mentor enabling you to freely express your doubts

Batch Mentorship

✓ Enroll in our team based mentor led sessions in which you will learn, think and develop in a team just like a real IT team.

✓ Brainstorm ideas, build and work on different aspects of a full scale project just like you would in an IT team. Giving you full experience of the IT culture.

Why Are Our Courses Effective

Here are couple of innovations that we have put into our trainings to make them affective

Labs and Projects

Enhance your resume with hands-on experience by working on industrially relevant projects under the guidance of a mentor. Showcase your skills and knowledge by highlighting these projects on your resume

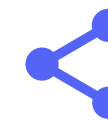

Workplace Tools and Softwares

Our goal is to ensure that you have all of the software expertise required for your specific training and job requirements. We will equip you with the necessary software skills through tailored training, ensuring you are fully prepared to excel in your job.

AI-Driven Feedback and learning

Since our portal is AI Driven, it produces a comprehensive report of your skills, strong areas, weak points, job prospects etc. This will enable you to understand where you might be lacking or where you are excelling

Internal Community Channel

As a member, you'll have access to an internal channel with subject matter experts and specialists from various fields who can answer your questions and offer valuable insights. This resource isn't just for learning, but also for addressing job-related challenges.

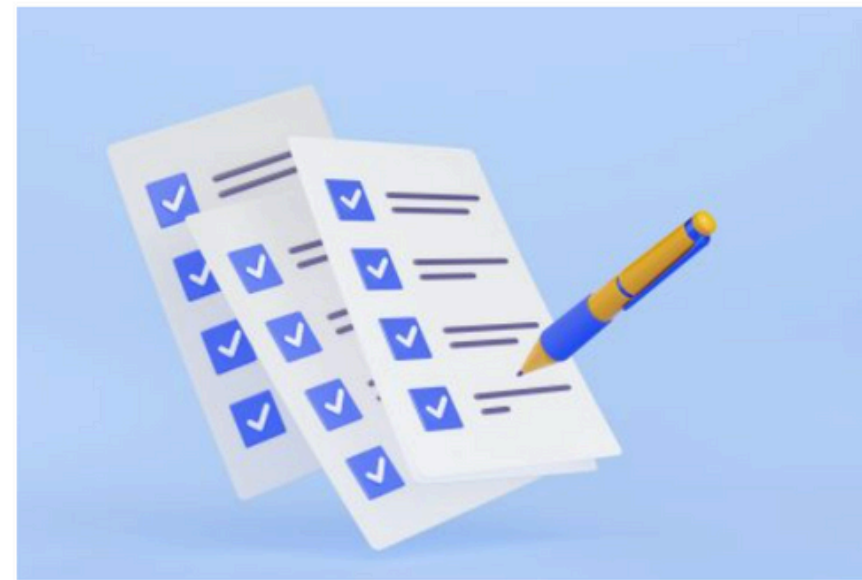

How To Start ?

Start and achieve your dreams in 4 Simple Steps

Step 1: Enroll In The Program

Signup and create a stunning profile. Our Placement Coordinator will get in touch with you to guide you further. We'll gather some basic info about you to begin with,

Step 2: Career Counseling

Your engagement starts with knowing more about your. Your Coordinator will schedule a Career Counseling session for you where you can discuss your path and choose a package.

Step 3: Start Your Journey

Begin your journey towards your goal. Start with preparing for your aptitude exams, get your resume revamped, get certified and interviewed ! We'll make sure you have an awesome placement

Step 4: Apply On Job Referrals

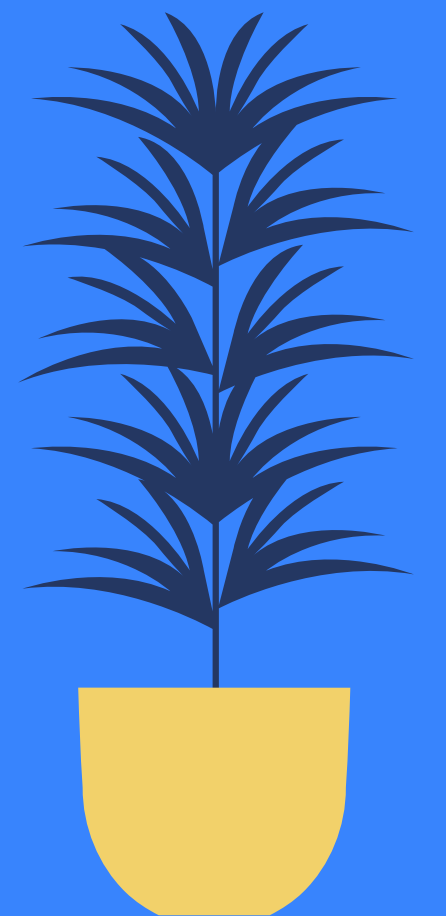

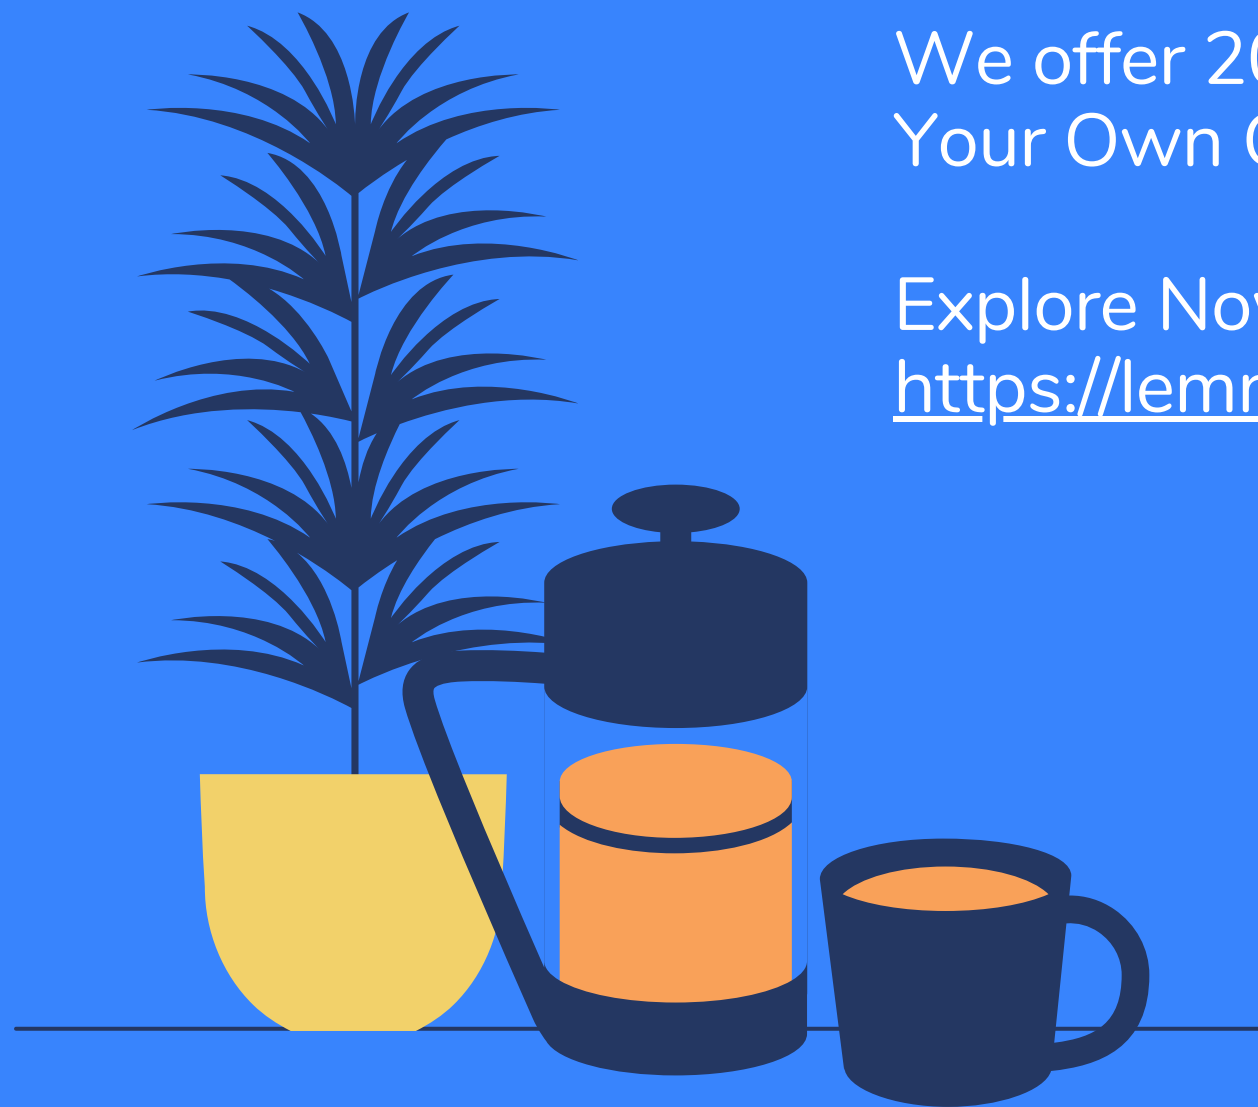

Once you are all prepped up, use our Job Management Dashboard to go through hundreds of Job Referral Opportunities. Apply and get interviewed in top companies around the globe.

Ramasamy Panchavarnam

0/5 (0 Feedback)

Member since September 16, 2023

I am Ramasamy Panchavarnam, a cloud architect and a trainer for AWS/Google Cloud Solution Architect, Security and Data Engineering. I have over 23 years of experience in information technology, which comprises 12 years on multiple cloud technologies like AWS, Google, and Azure. I have migrated thousands of servers from DC to AWS/GCP and provided architecture design solutions on polycloud/hybrid migrations. I have a master's degree in IT projects and several certifications from Google, AWS, Microsoft, Red Hat, Sun, Symantec, and VMware.

I am currently working as a Google authorized trainer and delivering corporate trainings to MNCs like Tech-M, TCS, CapGemini, Valeo, Ford and Camcast. I have also delivered many public webinars about AWS and Azure on Techgig and published articles on OFY Magazine about cloud security and open source tools. Previously,

I have also designed syllabus, content, and train the trainer program for cloud courses. I have also managed center operations, feedback and review, placement drive management, counseling and admission, and team management and development.

I am passionate about teaching and sharing my knowledge and skills with others. I have a knack for developing and delivering training solutions that meet business needs. I have also optimized training processes for efficiency and selected and managed resources. I believe in continuous learning and innovation, and I always seek new challenges and opportunities to grow.
